**FOR
EXTRA
HEAVY
TRAFFIC**

3/16"

Specify **AZROCK** 3/16" thick

*and get floors that
last twice as long!*

That's right. Floors that absorb an unusual amount of punishment from foot traffic *last twice as long*—when you specify AZROCK in 3/16" thickness.

Here's why.

3/16" asphalt tile is 50% thicker than 1/8" tile and theoretically should last 50% longer. However, actual use has shown that when asphalt tile wears down to a thickness of 1/16" it no longer has sufficient strength to stand up under traffic. Therefore, a simple calculation will show that 3/16" tile will have twice the effective life of 1/8" tile.

So, figure it out for yourself. Labor costs are practically the same, and 3/16" AZROCK costs only 50% more than 1/8" AZROCK. Give your clients with heavy traffic floor problems the benefit and added savings of 3/16" AZROCK specifications.

IMPORTANT ANNOUNCEMENT

TEXAS LIGHTWEIGHT AGGREGATE CO. Inc. PRODUCER OF LIGHTWEIGHT HAYDITE AGGREGATE NOW CONSISTS OF THE FOLLOWING COMPANIES

The Herculite Corporation
of Houston with plants at
Stafford and Rosenberg, Texas

Texas Lightweight
Aggregate Co. of Dallas
with a plant at Eastland, Texas

The name of The Herculite Corporation has been changed to TEXAS LIGHTWEIGHT AGGREGATE CO. of HOUSTON, under which name it will continue to manage and operate the two Haydite processing plants at Stafford and Rosenberg.

Texas Lightweight Aggregate Co. of Dallas will continue under the same name in the management and operation of the Haydite processing plant at Eastland.

Affiliated with Texas Lightweight Aggregate Co., Inc., is Louisiana Lightweight Aggregates, Inc., of Alexandria, Louisiana, with Haydite processing plant in that city.

All three of these Haydite aggregate companies are divisions of Texas Industries, Inc., of Dallas.

WHERE TO, CONSTRUCTION

Control of construction has been divided completely and thoroughly.

A look at the records proves this point beyond argument.

Construction requirements are presently dispersed among 15 separate agencies: Department of Defense, Department of the Army, Atomic Energy Commission, Civil Defense Administration, Federal Security Agency, General Services Administration, Veterans' Administration, Housing and Home Finance Agency, Department of Agriculture, Department of the Interior, Petroleum Administrator for Defense, Defense Transportation, Bureau of Public Roads, Civil Aeronautics Administration, Facilities and Construction Bureau of NPA.

Confusion? The duties of the Atomic Energy Commission entail industrial and other construction for atomic energy projects. The Department of Defense watches over military construction and all housing on military bases plus stock piles of critical materials. The Civil Defense Administration has charge of emergency stock piles of building materials. Who has charge of military construction and housing on the site of an atomic energy project?

No one knows this confusion and overlapping of duties better than the architect. Under the completely drawn-and-quartered building regulations as set up by NPA, for example, hospital programs are divided among three agencies (Defense, Veterans and FSA), industrial construction among three (Defense, Atomic Energy and the Facilities Bureau), housing among two (Defense and HHFA).

Competition for favored treatment will develop. Each government branch must vie with every other branch. It appears that in the rough and tumble for priorities, whatever is most plausibly stated and most vigorously upheld is likely to obtain the greatest advantage.

Many architects believed the lessons learned in World War II would relieve the complexity of government controls in future situations of similar nature. When NPA's Facilities and Construction Bureau came into being, architects hoped this was the answer to the need for centralized controls. Such is not the case. This bureau has now sunk to the bottom of the 15 agencies.

The biggest bite lies ahead as more and more of NPA's misjudgments come to light and defense production demands mount. Unless a strong agency is created to coordinate construction controls, no fair distribution of the materials supply is assured, no protection to civilian conservation will develop.

Chaos is upon us.

1951 TSA CONVENTION

Oct. 25-26 in San Antonio

With a schedule packed full of informative and valuable material and top quality entertainment, the 1951 TSA convention October 24-26 in San Antonio is expected to be best in the organization's history.

Headquarters for the meeting will be in the newly remodeled Menger Hotel.

Convention Chairman Marvin Eickeroth of San Antonio said many of the 250 architects expected to attend are registering their wives also.

Besides the business sessions and seminar meetings, a complete program of entertainment has been planned for delegates and wives.

The ladies' programs include a pre-luncheon party given with compliments of Frost Brothers, a style show luncheon and other functions.

Registration begins October 24 at 4 p.m. in the Menger lobby. The West Texas chapter, host to the meeting, will hold a "get acquainted" cocktail party on the hotel patio that night from 7 to 10 o'clock.

The opening business session will be at 10 a.m., October 25. At this time the new officers and directors will be nominated.

President Raymond Phelps of San Antonio will make his report to the membership during this session.

This report will be followed by a brief talk on public relations and the architect by George Kirksey of George Kirksey & Associates, public relations counsels for the TSA.

The first seminar session will begin at 1:30 the afternoon of October 25. This will be on the mechanical equip-

ment of buildings. The Thursday seminar will cover current mechanical design problems.

The opening address will be by Alfred L. Jaros, Jr., of Jaros, Baum & Bolles, New York City. Grayson Gill of Fort Worth will be moderator of the panel discussions.

Following the seminar session at 4:30 a design critique will be held on the student competition sponsored this year by the TSA. It is a problem dealing with lightweight construction.

Prizes totaling \$2,000 will be awarded fifth-year students with winning designs from the state's five architectural schools. The Featherlite Corporation has provided this prize money.

Thursday night a "Home on the Range" party will be given by the Uvalde Rock Asphalt Company in the Pearl Corral of San Antonio Brewing Association. This function includes dinner and dancing with Western costumes the mode of dress.

Friday, October 26, will begin with the second session of the mechanical equipment of buildings with expected developments.

Friday afternoon the delegates will hear Henry N. Heynann, division counsel for Construction Controls and Industrial Expansion division of the National Production Authority. David C. Baer, TSA Public Relations committee chairman, who secured the speaker, said Mr. Heynann will talk on construction controls and the future. "He expects to have a complete program to present to architects and construction people of Texas by the time of his speech," Mr. Baer said.

The closing business session will follow with the election of 1952 officers and directors.

The Houston and Dallas chapters of Producers' Council will host a cocktail party Friday evening and the president's dinner and ball will follow at 9 p.m. Presentation of competition awards will be made at the dinner and the 1952 TSA officers inaugurated.

Organizational committees for the convention are as follows: Bartlett Cocke and Reginald Roberts, general co-chairmen, West Texas chapter; Grayson Gill and Albert Goleman, seminar; Don Nelson, O'Neil Ford, Karl Kamrath and Mr. Eickenroht, student competition; E. I. Freeborn, registration; Dahl Dewees and Richard Vander Stratten, budget; DeHaven Pitts, reservations and arrangements; Charles Huie, sergeant-at-arms; Clarence Rinard, Robert Ayers and Allison Perry, publicity and program.

THE NEWLY REMODELED Menger Hotel, site of the 12th annual TSA convention October 24-26, features this new 500-square-foot-lobby, pictured below, with a plate glass wall facing a plant filled patio. Recently the hotel celebrated the opening of its new, 125-room completely air conditioned addition. The old Menger Bar was completely restored and new bedrooms and suites are appropriately furnished.

To the Membership, TSA:

Our accomplishments through the past 12 months have been plentiful for but one reason: the splendid cooperation I have received from the entire membership of the Texas Society of Architects.

Looking back over the year, it becomes impossible for me to select one program as our most significant, unless it would be our overall work in helping make this organization known and respected, helping mould it into a close-knit, stout body of professional people.

Our progress is personified by all our work. Committees that dealt with the many phases of our aims, and our actual being, met their problems with grace sparked with a will to do.

What prestige I have received as your president rightfully belongs to you as members. It has been through your untiring efforts and loyalty that our organization has been able to move ahead.

I hope that I may thank you personally for what you've done and helped me to do. Serving as your president has been a greatly appreciated privilege.

TSA CONVENTION SPECIAL COMMITTEES

TSA President Raymond Phelps at the September board meeting in Austin named the following special committees for the 1951 TSA convention to be held October 24-26 in San Antonio:

Nominating—Fred MacKie, Houston, chairman; Ed Wilson, Fort Worth; Zeb Rike, McAllen; Edwin W. Carroll, El Paso; Ralph Cameron, San Antonio.

Resolutions—Thomas D. Broad, Dallas, chairman; Preston Geren, Fort Worth; Albert S. Golemon, Houston; Nat W. Hardy, Corpus Christi; James E. Atcheson, Lubbock.

Constitution and Bylaws—Walter T. Rolfe, Houston, chairman; Leo M. J. Dielmann, San Antonio; W. W. Dornberger, Austin; Jack Corgan, Dallas; Walter Bowman, Harlingen.

Convention City—Lee Buttrill, Temple, chairman; Hamilton Brown, Houston; Hubert Crane, Fort Worth; Charles A. Millhouse, Austin; A. H. Woolridge, Brownsville.

Credentials—Herman Cox, Fort Worth, chairman; Otis Hazelwood, Palestine; Arthur Fehr, Austin; Row W. Leibsle, Houston; Richard Vander Straten, San Antonio.

The convention, 12th in the history of the Texas Society of Architects, is expected to be the largest yet with more than 250 members expected to attend.

HERCULITE HAS NEW NAME

The Herculite Corporation, producer of lightweight Haydite aggregate at Stafford and Rosenberg, has become the Texas Lightweight Company of Houston.

The name change was announced by Texas Industries, Incorporated, which owns both the Houston company and a sister company in Dallas.

DALLAS EXHIBITION WINNERS ANNOUNCED

Winners in the second annual architectural exhibition of the Dallas Chapter, AIA-TSA, have been announced as follows:

RESIDENTIAL CATEGORY: Award—David Rice Braden, own house; First Honorable Mention—Wiltshire & Fisher, four-unit apartment house owned by Mr. Fisher; Second Honorable Mention—Hidell & Decker, residence for Mr. and Mrs. Herman Blum; Third Honorable Mention—Harold W. Jones, own house.

INSTITUTIONAL CATEGORY: Award—Wiltshire & Fisher, Ft. Brown Memorial Center for the City of Brownsville, Texas; First Honorable Mention—DeWitt & Swank, Dallas City-County Memorial Hospital; Second Honorable Mention—Hidell & Decker, clinic for Dr. Wilbur Hawkins.

COMMERCIAL CATEGORY: Award—Smith & Mills, Geophysical Service, Inc., building; First Honorable Mention—Gill & Harrell, Ft. Worth bus terminal building for Southwest Greyhound Lines, Inc.; Second Honorable Mention—Smith & Mills, Orand Buick Company building.

Winning designs will be shown at the Texas State Fair in the Museum of Fine Arts.

Judges were Katherine Morrow Ford, author, critic and architectural editor of "House & Garden," Thomas H. Creighton, architect and editor of "Progressive Architecture," and Donald Barthelme, architect and professor of architecture, University of Houston.

CIRCULATION

Circulation of THE TEXAS ARCHITECT now reaches nearly every state in the nation with approximately 9,000 copies printed monthly.

SEMINAR PANEL FEATURES AUTHORITIES

A group of the nation's outstanding construction men will form the seminar panel for the 1951 TSA convention October 25-26 in San Antonio.

These men are Alfred L. Jaros, Jr., of Jaros, Baum and Bolles engineering firm, New York City; P. N. Vinther, Dallas construction engineer; Reg. F. Taylor, consulting engineer of Houston; F. E. Giesecke, architect and engineer of New Braunfels; Martin E. Staley, mechanical engineer of San Antonio; Charles G. Heyne, mechanical engineer of Houston, and Donald Barthelme, Houston architect and architectural professor.

Mr. Jaros, whose firm specializes in air conditioning, has worked on projects such as two bomb-proof Diesel power plants in the Panama Canal Zone, Naval Aeronautical Engine Laboratory, first all air conditioned office buildings in New York City, continuous supersonic wind tunnel and many more. He has contributed chapters on mechanical equipment to a four-volume book published recently by Columbia University School of Architecture.

Mr. Taylor is second vice-president of the American Society of Heating and Ventilating Engineers and has done mechanical design work on many of the larger buildings in the Southwest.

A practicing architect since 1933, Mr. Barthelme has won numerous awards for his work. He is now a professor of architecture at University of Houston.

Mr. Heyne has done mechanical installation work in some of the larger government and private buildings. He has sold mechanical equipment and owns his own company.

Mr. Staley was an officer and mechanical engineer on construction work in the U. S. and Philippine Islands during the war. He opened his own office in San Antonio following the war.

As Grayson Gill, chairman of the committee on the seminar panel, pointed out, "All these men are leaders in their field. What they will have to say during the important discussions will be of top interest to us all."

The panels will feature mechanical equipment of buildings and will look into the future of this vital part of construction.

FIRST TSA CONVENTION

The first state convention of the Texas Society of Architects was held in Austin in 1940.

FT. WORTH ELECTS OFFICERS

New officers elected by the Fort Worth Chapter, AIA-TSA, are as follows:

President, W. M. Collier, Jr., Abilene; vice-president, A. J. Cappelle, Fort Worth; secretary, P. M. Geren, Jr., Fort Worth; treasurer, George S. Sowden, Fort Worth.

These men will head chapter activities during the next year.

IN MEMORIAM

Henarie Luckett Scott, 72, until 1934 one of San Antonio's leading architects, died last month in Houston. He designed many of San Antonio's more outstanding residences and was working on an invention for automatically parking cars in big garages. Mr. Scott had lived in Houston two years, having moved there from Detroit, his home since 1934.

SEPTEMBER BOARD MEET

The TSA Board of Directors held its regular monthly meeting September 15 in the Commodore Perry Hotel in Austin.

The secretary announced that more than 2000 copies of the fee schedules are available. After discussion it was voted to send one copy of the schedule to each member of the TSA.

Committee chairmen turned in their reports that will be consolidated into the president's general report to the convention.

President Phelps set the next board meeting October 24 in San Antonio.

1951 CONVENTION OF TEXAS

San Antonio, Texas

PROGRAM

Wednesday, October 24

- 4:00 p.m.—Registration begins in the lobby of the Menger Hotel. The registration desk will remain open until 9:00 p.m. Registration fee is \$20.00 for architects, \$10.00 for ladies and \$10.00 for guests and Producers Council.
- 7:00-10:00 p.m.—“Get acquainted” cocktail party, Hotel patio; host is West Texas Chapter.

Thursday, October 25

- 9:00 a.m.-5:30 p.m.—Registration in the Menger Hotel lobby.
- 10:00 a.m.—Opening business session, Minuet Room, President Phelps presiding. Invocation by Bishop Everett Jones, Bishop, West Texas Diocese of the Episcopal Church. Welcoming address by C. C. Simons, President, West Texas Chapter. Keynote speech. Secretary-treasurer's annual report by Richard Vander Stratten. President's annual report. Nomination of 1952 officers and directors. George Kirksey of George Kirksey & Associates, public relations counsels for the TSA, will talk on the architect and public relations.
- 12:00 noon—Luncheon for men in the Latin Quarter, Menger hotel, (Dutch Treat). Those wishing to lunch in a group make reservations at registration desk.
- 12:00 noon—Pre-luncheon party for the ladies, St. Anthony Hotel.
- 12:40 p.m.—Style show luncheon for the ladies, Anacacho Room, St. Anthony.
- 1:30 p.m.—Seminar (men) on Mechanical Equipment of Buildings. The theme will be current design problems. Opening address by Alfred L. Jaros, Jr., of Jaros, Baum & Bolles, New York City. Panel discussion with Grayson Gill as moderator and members P. N. Vinther, Reg. F. Taylor, Prof. F. E. Giesecke, Martin Staley, Fred Heyne, Donald Barthelme.
- 4:30 p.m.—Design critique of winning designs in student competition sponsored by TSA and the Featherlite Corporation.
- 5:00 p.m.—Adjourn.
- 7:00 p.m. to midnight—“Home on the Range” party, Pearl Corral, San Antonio Brewing Association, 312 James Street, host: Uvalde Rock Asphalt Company—dinner, dancing, Western costume.

TEXAS SOCIETY OF ARCHITECTS

October 24-26

Friday, October 26

- 8:00 a.m.—Breakfast, Minuet Room; architects and wives will be guests of the Acme Brick Company. Admittance by ticket only.
- 9:00 a.m.-1:30 p.m.—Registration, Menger lobby.
- 9:00 a.m.—Seminar on Mechanical Equipment of Buildings with a theme considering "A Look Into the Future." Same panel members.
- 12:00 noon—Open for men.
- 12:00 noon—Ladies' luncheon, Latin Quarter, Menger, walking tour to La Villita, San Antonio's restored "little town" as the city was in its early days. This is now an art center.
- 1:30 p.m.—Henry N. Heynann, division counsel for Construction Controls and Industrial Expansion division of the National Production Authority in Washington, D. C., will talk on construction controls and the future.
- 2:30 p.m.—Closing business session begins, Herbert Tatum, vice-president, presiding. Order will be: new business, report of Resolutions Committee; report from Wm. C. Baxter, vice-chairman of the State Board of Architectural Examiners; report of the Registration Committee; general discussions; election of 1952 officers and directors.
- 5:00 p.m.—Adjourn.
- 7:30- 9:00 p.m.—Cocktail party with Houston and Dallas Chapters of Producers Council as hosts.
- 9:00 p.m.—The President's dinner and ball, Colonial and Minuet rooms. Includes presentation of competition awards, inauguration of new officers. Dress formally or informally, the latter probably prevailing.

AN INVITATION

You are cordially invited to make full use of our Hospitality Room at the Menger Hotel during the Texas Society of Architects Convention to be held in San Antonio October 25th and 26th.

CONSTRUCTION FEATURES

DURABILITY

Sash and frame members are electro-galvanized, bonderized and primed with one coat of Bakelite (phenol-resin base) paint, oven-baked. 18 gauge throughout except sill of frame which is 16 gauge.

HEAD

Motor-spring type spring balances with Enduro stainless steel tapes. Two balances for each sliding sash. Windbreak flange set back to allow room for lintel. Stainless steel weatherstripping attached to sash. 18 gauge frame and sash members.

MEETING RAIL

Interlocking tubular sash rails with stainless steel weatherstripping. Bronze sweep lock and strike. Rust-proofed pull-down handle. 18 gauge sash members.

JAMB

Full length stainless steel weatherstripping attached to frame assures weathertightness and also serves as sash way for both upper and lower sash for easier operation. Plaster stop provided on interior and rebate for screens and storm sash on exterior. Deep head. 18 gauge frame and sash members.

SILL

Double step design forms two point weatherstripping contact with sash. Heavy 16 gauge steel for strength and rigidity. Stainless steel weatherstripping attached to sash. Two bronze sash lifts.

Pole Hook and Pole P-7318

Furnished at extra cost. Lengths 6'-8"-10". Bronze hook, steel tube shaft, rubber tip. NOTE: Not furnished for "A" or "B" types over 3'-0" wide.

Spring Balances

Sweep Lock P-7330-CB

Lock Keeper P-7367-R

Pull-Down Handle P-7281-R

You Can Rely

on

RHEEM PRODUCTS

- *Automatic Water Heaters*
 - *Gas Fired Heating Equipment*
 - *Water Softeners*

You can ease the chore of writing specifications, and ease your mind about the quality and dependability of the heating equipment you specify by standardizing on Rheem products — built right here in Texas. The Rheem line is complete. Every product is built, inspected, and tested with the meticulous care needed to assure complete satisfaction. Write for complete specifications on the Rheem line.

DALLAS PRODUCERS' COUNCIL BEGINS NEW FISCAL YEAR

The Dallas chapter of the Producers' Council met September 10 at the Melrose Hotel to begin the new fiscal year.

Horace Butler, new chapter president, presided and activities for the year 1951-52 were discussed.

Other new officers are M. B. Vifquain, vice-president; Harry H. Roberts, secretary, and Harold Swanson, treasurer.

HELPING IN CIVIL DEFENSE

The Houston Chapter, AIA-TSA, is co-operating with the Houston civil defense director by inspecting the city's schools to find the locations safest for students in time of atomic attack.

Talbot Wilson is chairman of the chapter's Civil Defense committee which is coordinating the work.

Trinity White

A TRUE PORTLAND CEMENT

Wherever the need for white is indicated, use Trinity—the whitest white cement. Its whiteness has a penetrating quality for mass or for contrast.

You'll get fine results with Trinity White in architectural concrete units, terrazzo, stucco, or cement paint.

Where pigment is added, the extra whiteness gives clearer color tones. Trinity White meets Federal and ASTM Specifications Trinity

Division, General Portland Cement Co., 111 W. Monroe St., Chicago; Republic Bank Bldg., Dallas; 816 W. 5th St., Los Angeles; 305 Morgan St., Tampa; Volunteer Building, Chattanooga
